## *New Interior Products Coming To The 2023 Convention*

**Leather Balm:** *This is a thicker version of Polycryl that allows you to also fill fine cracks as you color the item.*

**Magic Heat Wand:** *This is a pin point heating tool that will allow you to concentrate heat to any small area allowing you to do repairs on very sensitive materials without creating a halo.*

**FX- 9 Low Gloss Thick and Thin:** *This is the newest version of FX-9 low temp. It is now in a new low gloss formula and it is available in Thick and Thin viscosity.*

**New Flock Chopper:** *This tool allows you to chop your flock into very fine Microfiber for better looking repairs.*

**New Micro Torch:** *This is a new butane powered torch that is used for doing hard plastic repair.*

**Ultra Flex:** *This is a new sandable heat cure compound that features a low gloss.*

**Color Flex:** *This is a colored version of FX-9. It now comes in 10 different colors that can be intermixed to create 100'S of colors.*

**New Polycryl Promax Ultra:** *This is the newest version of Polycryl that will feature extreme chemical resistance and improve the feel properties.*

**New Duracryl Promax Ultra:** *This is an improved version of Duracryl topcoat which will feature improved chemical resistance and UV resistance for interior and exterior applications such as marine applications.*

**Updated Polycryl Color Swatch System:** *This new system has added colors and formulas to help you get to more colors faster when it comes to color matching.*

**New Extra Large Round Grain Pads:** *These grain pads are extra large and round so they can go around steering wheels and make repairs without edges.*

**New Protex:** *This is a new and improved spray texture for use in texturing repairs.*

**Pro Weller Iron:** *This is a 700 degree professional Weller Iron with a special shoe for making iron repairs.*

**New Flock Roller:** *This new tool improves the look of velour repairs.*

**See demonstrations Friday & Saturday at convention. Then try the products out yourself at one of our Product Workstations located in the Pavilion.**
