

CHRISTMAS 2020

WHAT'S UP, DOC?

December 2020

Dear owners and associates:

As this year is coming to a conclusion, we at headquarters would like to express our respect and gratitude to all franchise owners and associates within the Dr. Vinyl/The Doctors Touch franchise system.

2020 has been a very challenging year to say the least. We've seen how hard each of you continued to work and service your customers despite the difficult circumstances caused by the pandemic!

It was also great to see that many of you were able to take advantage of the Paycheck Protection Program (PPP) and the Economic Injury Disaster Loans (EIDL) support from the SBA. We're happy that Dr. Vinyl was able to coach many of you through that confusing process.

Due to your determination and entrepreneurial mindset, we still we're able to train 21 new associates & 2 new owners (some associates were trained by owners themselves)! That is great considering the situation.

Five (5) franchise owners retired this year after being with Dr. Vinyl for decades. I would like to thank them for their loyalty and support to our franchise system. We wish them the best in their future endeavors.

Again, 2020 was a challenging year and our overall sales for the system were down, but we are looking ahead to 2021 with a positive mindset knowing that after the rain there is always sunshine for all of us.

All of you will receive a little gift before Christmas from headquarters to show our appreciation.

Personally, I want to thank the staff at headquarters for giving it their best in these trying times, its an honor to work with you!

From here, the staff & myself wish you and your family a very Merry Christmas and a Happy New Year. Stay safe and be sure to call us anytime if we can help or advise you.

Sincerely yours,
Richard Reinders and Staff

*****REMINDER*****
NEW POLICY REGARDING MAIL FROM DR. VINYL

Dear Franchise Partners:

Effective January 1, 2021, Dr. Vinyl corporate will no longer be sending newsletters, invoices or statements via United States Postal Service (US Mail). All correspondence will be sent via email.

Below are some of the reason we are making this decision.

Speed – What we’ve come to know today as “snail mail” takes several days to go the distance we could drive in less than one day! Email is almost instantaneous. You don’t have to walk out to a mailbox, or even worry about putting the flag up!

Reliability – Have you ever gotten a piece of mail in your mailbox that was meant for someone else, but was delivered to you by the mistake of the mailman? Or maybe you moved and forgot to tell the sender your new address and you never received the bill? With email, that doesn’t happen unless the person sending the email to you types your email address wrong!

Price – With services like **Dr. Vinyl Email and Gmail**, sending and receiving email is free with an Internet connection! With snail mail, you have to buy labels, envelopes and stamps!

Quantity – By email, you can send pages and pages of information, as well as photos, video, and other documents. If you want to send more than what can fit in an envelope, it costs more and it’s a hassle!

Convenience – You can access email from anywhere, on almost anything! No more paper to worry about anymore! Also, copying it and sending it to someone can be done in seconds!

If you currently do not have an email address, just contact Dr. Vinyl Corporate and we'll be more than happy to set you up with a **@drviny.com** email address at no charge to you. You can also get a free **@gmail.com** address if you prefer. Just visit **mail.google.com** to sign up for a free Gmail account. **Make sure you inform Dr. Vinyl headquarters of your email so we can be sure to update our records and keep you informed.**

There will be some correspondence we must send by United States Postal Service but in an effort to cutdown on postage cost due to USPS delays and incorrect addresses. This change is necessary. If you have any questions or concerns, please do not hesitate to call.

Thank you for understanding and we apologize for any inconvenience this may have caused.

Sincerely,
Dr. Vinyl Corporate

Anniversary Date Recognition

In each publication of the “What's Up Doc?” newsletter, we would like to recognize those individuals whose anniversary date falls within that month. We will recognize those celebrating their 5, 10, 15, 20, 25 years of service to The Dr. Vinyl Group.

*For the month of **October, November & December 2020**, we would like to recognize the following individuals for their years of service with The Dr. Vinyl Group. If we somehow missed recognizing you or your associate, please let us know as soon as possible.*

There are quite a few technicians within our group that would've suggested sending the job below to the body shop. Not **Randy Odell Jr. & Shena DeForge**, associates of **The Doctors Touch of Indianapolis**. They said **"We Got This."** Randy pulled out his Auto Body Tool Kit and from underneath the vehicle, he worked the metal back out to the fender flare. After getting it all nice and smooth, **Shena** mixed & sprayed the color and **Randy** applied the Clear.

Voilà! Another Satisfied customer.

AFTER

DENNIS GARRIGUS

Pictured above, one of my restaurants wanted to create outdoor seating for their customers. They purchased some large round tables that had tops that were in poor condition. The asked me to cover them with vinyl. The wood on a couple of tables had failed due to heavy rain. I decided to make some new tops out of pressured treated plywood. Since the outdoor seating season was coming to a close, I installed the new tops the day after they called me. The manager could not stop telling everyone how quickly I responded to his need. This was a chain restaurant (Logan's Roadhouse) in East Peoria, Illinois. I am sure he will tell the managers at their other restaurants in our area. Hopefully, this will bring more business my way in the very near future.

Pictured to the left, I was asked to construct a padded wedge, covered in vinyl, at the bottom of a round slide, that was in the children's area that extended from the upper level of the church to the lower level. They also wanted a cover for the opening of the slide that could be secured when not in use. The bottom of the slide was 15 inches off the ground. The ramp would act as a soft landing for the kids so they wouldn't get injured coming off the slide. It was constructed using 2x4's, 1/2" & 2" foam, and a little creativity from me. This was for the church that my wife Michele and I attended for years. I think the project turned out great!
